## LATEST NEWS

Welcome to the latest edition of the Fishermen and Scientists Research Society newsletter.

As mentioned at the general meeting February, we continue to think about ways to make the FSRS better for our members and collaborators. We are working on our Strategic Plan and we are looking for your suggestions on how to increase membe and keep the FSRS moving forward! A short survey was sent out and we would appreciate your participation to help us develop and grow.

[PARTICIPATE IN SURVEY HERE](#)

If you know anyone who is interested in receiving more information about the FSR please direct them toward signing up for our newsletter. <http://fsrs.ns.ca>

Let us know how we can make the Fishermen and Scientists Research Society better for our members and our supporters. Please feel free to send your thoughts to

[info@fsrs.ns.ca](mailto:info@fsrs.ns.ca).

If you have an event coming up that you would like us to attend and promote on t website, Facebook or Twitter– send it along!

Best of luck and safe fishing to all of the spring lobster fishermen! and continued fishing to all fishermen on the waters now.

Wishing you all the best

---

## 2017 ANNUAL CONFERENCE

We held our 24th Annual Conference on February 23rd, 2017 at the Best Western | hotel in Dartmouth, NS.

Our Chair of Communications Magali Gregoire was the EmCee again this year and did a wonderful job. Thank you Magali! President of FSRS Ken Snow welcomed all attendees and thanked them for helping to keep the great work of the FSRS going. Big Thanks again to our wonderful sponsors!

## Presentations

The conference included a range of presentations on topics ranging from marine conservation, mitigation and fishermen engagement to genetic tools and their use in modern Canadian fisheries. This was followed by an FSRS project update along with a summary of the upcoming Strategic Plan and the Annual General Meeting. In addition to the sessions, the conference included posters and displays.

**Keynote: [Dr. Megan Bailey](#), Dalhousie (megan.bailey@dal.ca) – Frontiers Were Made Broken: Next generation Collaborative Research for Fishermen and Scientists**

**[Dr. Alain Barnett](#), University of New Brunswick (allain.barnett@unb.ca) – Marine D  
Mitigation and Fishermen Engagement**

**[Dr. Melanie Wiber](#), University of New Brunswick (wiber@unb.ca) – Fishermen/Scie  
Collaboration in Risk Assessment of the Impact of Aquaculture on American Lobst**

[Dr. Greg Puncher](#), University of New Brunswick (gregory.puncher@unb.ca) – Gene Tools and Their use in Modern Canadian Fisheries

[John Paterson](#), NS Nature Trust (john@nsnt.ca) – Trialing Mitigation Devices to Reduce Seabird Bycatch in Namibia Fisheries

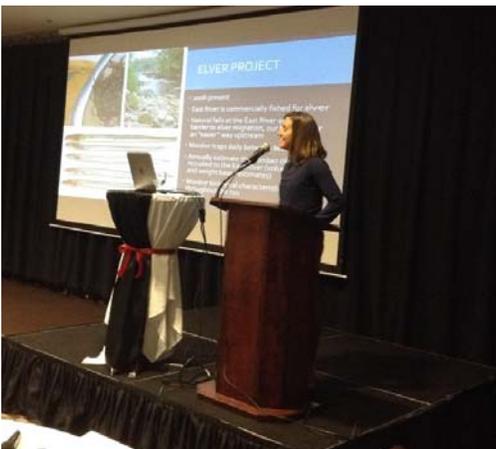

[Chelsey Karbowski](#), Ecology Action Center & [Amanda Barney](#), Ecotrust Canada (ckarbowski@ecologyaction.ca & amanda@ecotrust.ca) – Electronic Video Monitoring

## Community Groups

Following the AGM, the afternoon program boasted our Community Groups Forum back at this year's conference by popular demand. We heard discussions from the involved with the Maritime Aboriginal Peoples Council, Bluenose Coastal Action Foundation and the Fundy North Fishermen's Association. To take a closer look at exciting research being completed by these organizations, please see their full presentations below.

[Jessica Seward](#) & Jamie Knill, Maritime Aboriginal Peoples Council  
([jseward@mapcorg.ca](mailto:jseward@mapcorg.ca) & [jknill@mapcorg.ca](mailto:jknill@mapcorg.ca))

[Danielle Pernette](#), Bluenose Coastal Action Foundation  
([danielle@coastalaction.org](mailto:danielle@coastalaction.org))

[Darlene Norman-Brown](#), Fundy North Fishermen's Association  
(fnfa-asst.dir@nb.aibn.com)

### Posters

Following the presentations everyone had the chance to view the Student Poster submissions and learn about the valuable research students across the Maritime are conducting within the fisheries industry. For more information on the poster summaries, please see the list of presenters and their full presentations [here!](#)

Our Student Poster Session was well received again this year! Congratulations to A. P. Fuentes from Dalhousie University for winning the top prize for Scientific Merit (donated by Nova Scotia Institute of Science), as well as Candace Nickerson who won the People's Choice award!

We would like to give a warm welcome to the FSRS 2017 Board of Directors:

### 2017 Board of Directors

Position	Elected Member
President	Ken Snow

Vice President

Hubert Boutilier

Secretary

Peter Hurley

Treasurer

TBD

William Bond

Fraser Clark

Josh Fricker

Courtenay Parlee

Directors at Large

Mike Sinclair

Junior Risser

Angelica Silva (Scientific Program Committee Chair)

TBD (Communications Committee Chair)

The conference ended with our Dutch Auction and reception in the evening. Thank to those who attended and enjoyed the fun! Please plan to join us next February for 25th Annual Conference.

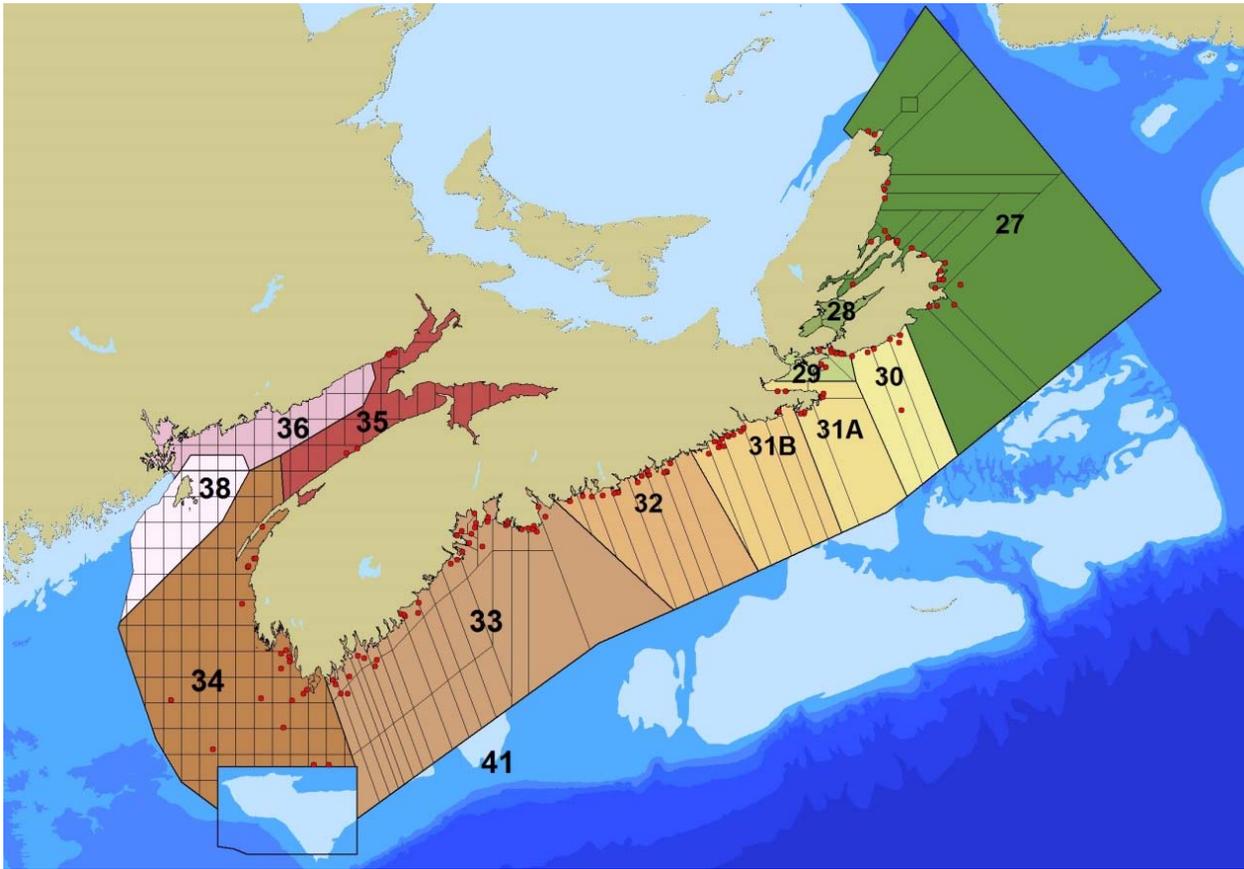

---

## SCIENCE UPDATE

### ***Elizabeth Baker – Acting Science Projects Manager***

The FSRS hosted a successful 24<sup>th</sup> Annual Conference in February where we heard about some valuable research that is being conducted throughout the Maritimes. / conference I also gave a review of our scientific projects conducted over the past y take a look at my presentation [here](#).

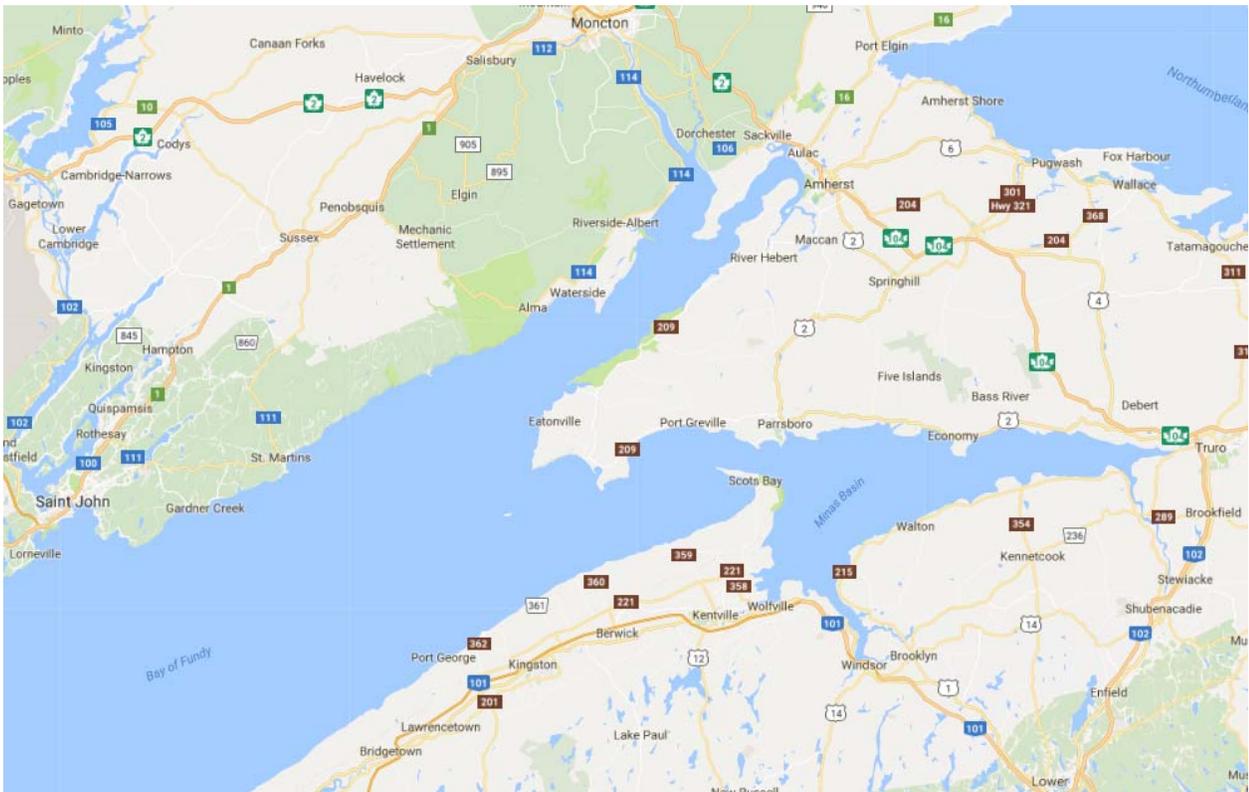

We have upcoming meetings planned for the **Lobster Recruitment Project** for participants in Lobster Fishing Areas (LFAs) 27, 29, & 30 (Cape Breton) and LFAs 3 31B (Eastern Shore). At these meetings we will present findings from the previous fishing season and distribute study materials for this coming season. To take a lo some of the results of the project, see the Scientific Program Committee presentat linked above, or the updated scientific poster [here](#).

FSRS focus group discussions in Bay of Fundy

The FSRS invites you to discuss your knowledge of Fundy's unique environment at focus groups this Spring! The FSRS Staff have been contracted by Big Moon Canada Corporation, a new tidal energy company developing a unique technology – the Kinetic Keel™ – that is designed to have minimal impacts on the environment. The purpose of these focus groups is to help educate Big Moon on the potential impacts of their technology, and how it may be integrated into the Upper Bay of Fundy with as little environmental, social, and economic impact as possible.

So far we have already held two pilot meetings and four focus groups in the Upper Bay of Fundy area. We will be holding focus groups from Harbourville, through Minas Passage, the Minas Basin and Cobequid Bay, to Chignecto Bay area to Alma, NB. We are hoping to meet with commercial and recreational fishermen alike, discussing important topics such as important fishing sites, sensitive areas for fish, and areas that would be particularly important to avoid when determining sites for the Kinetic Keel technology. These focus groups are small meetings of 2–6 fishers, and usually last 45 minutes to one hour.

This survey is a very important opportunity for local knowledge to be communicated to tidal energy developers; it is also an important opportunity to learn about this new upcoming tidal energy technology. If you are interested in participating in a focus group, or feel you know of other fishers who would like to participate, let us know. Email our research assistant, Jessica Cosham ([jessica.cosham@fsrs.ns.ca](mailto:jessica.cosham@fsrs.ns.ca)), or call the office at 1-800-226-3777 and we can plan a focus group in your area.

Focus groups will only be running until the beginning of May, so let us know as soon as possible if you are interested!

## **WELCOME BACK BRANDON!!**

Hello my name is Brandon Fitzgerald and I am from Yarmouth, NS. This will be my second year working with the

FSRS as a Fisheries Technician. I have completed a two year Fish and Wildlife program in Ontario at Fleming College. Along with that, I completed a 16 week Conservation Enforcement course in PEI. Last year with the FSRS I worked in Yarmouth area, LFA along with the Eastern shore in LFAs 31B and 32. This season I will again be working along the Eastern shore, doing at-sea and plant sampling as well as V-notching. I look forward to working with fishermen I met last year as well as new fishermen this year.

---

## Oceana Canada

Oceana Canada is an independent charity committed to rebuilding Canada's oceans by winning policy victories that increase biodiversity and abundance through science-based fisheries management. ["Our Oceans Hold the Key to One of the World's Biggest Challenges"](#) is one of the most recent articles featured on the website discussing the topic of sustaining our ocean food source with a rapidly increasing population. To learn more about the organization, visit their website and view the full article [here!](#)

## UPCOMING EVENTS AND LINKS OF INTEREST

[See Change: Tides of Environmental Learning](#) May 18–21, 2017 Wolfville, NS

[Using the Ocean Health Index as an Integrated Tool for Implementing EBM and Co Management Approaches Globally](#) – Tuesday, May 2 at 1pm US EDT / 10am US PD 5pm UTC

[11th International Conference and Workshop on Lobster Biology and Management](#)  
Portland, Maine, USA, 4–9 June, 2017

27–28 June 2017: Canadian Minister of Environment and Climate Change Catherine McKenna will host her counterparts from Mexico and the United States in Charlottetown, Prince Edward Island, for the annual [Regular Session of the Council the Commission for Environmental Cooperation \(CEC\)](#). Please NOTE: The Council Session on June 28 will include a public session headed by the three environment ministers. It is open to the public and will be webcast live at <http://www.cec.org/webcast>. Registration opens in March, 2017. June 2017.

21–22 September 2017: [Sustainable Oceans Conference](#) being held in Halifax, Nova Scotia. NOTE: Call for abstracts are due March 5.

### Canada C3

#### Canada Coast to Coast to Coast

Canada C3 is a pan-Canadian Government of Canada signature project for Canada's 150th Anniversary. Canada C3 will celebrate the people and places that have shaped Canada's identity and those who are shaping its future. Engaging millions of Cana

across the country, the centrepiece of the project is an epic 150-day sailing expedition from Toronto to Victoria, via the Northwest Passage. The four central themes of the Canada C3 project are Diversity and Inclusion, Reconciliation, Youth Engagement, The Environment.

## Understanding Chemical Pollution at Sea New Resource

Find out all about chemical spills caused by ships, improve your understanding of response to chemical spills at sea. This website is part of a series of educational documents produced by Cedre in collaboration with Transport Canada aimed at 16-18-year-olds as well as their teachers and the general public.
